

Shared learnings, multiplied savings - Balancing efficiency, integrity and investment

13-14 June 2017, AECC

Exhibition and Sponsorship Opportunities

Topsides UK 2017 will provide a technical conference and exhibition for Operators and Supply Chain to share learnings and best practices; encouraging discussion on how to balance efficiency, integrity and investment. Building on the Industry established forums such as Production Efficiency Task Force (PETF) the conference aims to explore key areas affecting Topside operations. Energy Institute CPD points are available for attendees, for this local, low cost training and development opportunity.

This year, the conference agenda will be driven by BP, Centrica, ConocoPhillips, Enquest, Shell, Suncor, TAQA and the OGA. The exhibition will provide a platform for the supply chain to showcase the latest ideas and innovations.

Topsides UK is a not-for-profit conference, jointly organised by SPE Aberdeen and Mearns & Gill. Any surplus funds raised are reinvested to help support various initiatives and in particular, to help support our future generation of young engineers.

We are looking for Conference partners and we have various sponsorship and exhibition opportunities available.
